

I had a great deal of `nerves-angst` when we went near the Seafront where *these-they* the coarse ones Lindsaybuggarhs have their GRAND- but we were to have WARNINGS if they descended- & it was felt they would stay about London & the Continent for their kind of

roads to HELL -

Hell as in our painting by H.B. at Montrose our farm where Old Mrs Ransom showed it to me & had it brought down from over the books so Len & I could see it the better last year when we dug up the family graves photographed & did drawings of them

...

The matter of Grandpa Gordon dead for my last birthday occupied my mind & Auntie Winnie had said as we planned the Funeral Tea & when we were setting it out before the Funeral

because Father was so good a man & a husband I think GOD may not let his body rot in the grave`

...

I was not allowed at the Funeral...**this was the decision of *SHEshe* & LINDSAYBUGGARHS**

so I did not meet any of the vast GORDON CLAN come for it

...

Mr Pong & Lindsaybuggarhs want me to be a deaf mute !

They plan to say I have never existed when they have lured me to my death again!

They do this in Scotland to heirs & old folk !

Grandpa will never paint again-go fishing-cycling & sketching-come to my School  
Pantomime- talk round the Town to Quakers & all folk-all who go`th in/out the  
churches-the Classical architecture Clacton Town Hall the shops great & small- the  
homesteads outside Clacton a bike ride where we go with sketch book & to take a look at  
books-gardens-orchards & craftworks- He will not smile  
& puff his *Erinmor*

little island in the snows-` Grandpa Gordon he wants to come & try his hand with paint  
on Jacopsholmen Island-

he is pleased to know Delacroix sailed in from Bordeaux to do this & painted in the  
church & on the door-

**Grandpa George Gordon says**

` the painter Delacroix he was getting on like me when he went to the Arctic-but its not so cold  
on the island I am told`

...

`

Lindsaybuggarhs & scum were all horrible outside that winter night & in their cars were  
they those monsters of the Deep from the Lindsay PEN on the seafront-GRAND... that  
last night Grandpa was alive-

I got out of bed above & sat on the top of the stairs fearing I would be taken by my collar

GREED -

1937 Summer “**Jo says**” relates our Hostess first afternoon on the beach to Freddy

Clacton Theatre  
not to say she is with him

... `she is

...  
ANDRE.  
Not even to her best friend

...  
he is ruled by Clara

...  
JO  
says he has powders which can take her memory away & she is frightened to disobey him or tell anyone that she is with him

...  
because he will use this on her.

He  
,

s told her so !  
We are getting a Doctor in Paris & other people to talk to him- He must grow up

...  
Oh they get up to these tricks in Paris

...  
some circles

...  
But its Clara gets up to these tricks  
- Oh it happens- you just have to be careful  
..."

` But all his friends in PARIS want him to leave Clara... *Greetah* is going to show us where to get the key to the house at ORFORD

(Suffolk)

to-morrow-

They say

JO

& he can have it for 2 years-they are off to America-& if there is going to be a WAR they will not come back

...  
,

*I am listening very carefully for I Greta Ransom coming 5 years old know quite a lot about the tricks of taking peoples memories away !*

**I think he doth need to be put back in**

**A State of Grace**

...  
this Catholic young man they call Andre or Andrew if people are too near -I am told to call him George

...

Unity's mother is telling Freddie who owns Clacton Theatre because he has just arrived with his car & the YOUNG  
PEOPLE a

re a little distressed- It is the first day about 4pm as we make a *depo*

on the beach at Holland-on-sea-

She will soon take

Andre

to meet her father in the Convalescent Home-they will take

JO

in to meet him on another visit to-morrow

...

we are staying in his home

-his wife died a little time ago

...

Freddie is discussing the visits we are to make & he will come with his car on some of them-Dedham-Fingeringhoe- Felixstowe- Saint Osyth- Colchester- Suffolk villages- Orford & Orfordness- Mistley Towers

...

So many visits & such happiness is to be in the days ahead- So Freddie is prepared for a little distress between the young visitors out of bloody SPAIN- I learn that

Andre is frightened of being seen with JO & of being here in England-

*Clara & Maurice her older brother are not very nice perhaps*

...

Saint George ANDRE has attained quite quickly a State of Grace- for he has been raised by 3 Graces as a Catholic child - thus I  
build him

a

**'s**

**brother John-he had 2 families-& that**

,

**s how Cousin Clarke comes along (Clarke Gable)`**

...

We have 3 deck chairs we pay for & Freddie coming for a short time sits on the sand & so do I- making that sand banquet. Perhaps it is the next day when I have a *near tears* dialogue with a man in a deck chair with a can of worms open & dying in the sun.

I said they might have souls !

But that is this medicine that Sheshe has left for me !

I was in *near tears* & had said to our hostess before we came to the beach that I DID NOT WANT A SPOON OF THAT MEDICINE !

That it made me see silver black tunnels in my head I felt sick & my brain turned inside out & went round & round-

She had said ‘Oh dear but you have to have it- Auntie Winnie gave it to me before she left- & we can get some more from Archie in Boots- *Greetha* I think you must take your medicine

...”

So I had silver nasty black tunnels the first days of the Visit of ANDRE & JO- I felt sick & my body would not stay with my head

...

It is

ANDRE-

George

who will stop her giving me this.

He poured it down the sink because I was so frightened & red in the face !

He went to ask Archie in Boots Chemists what it was.

Archie said

‘

*oh it doesn*

,

*t do much & a good diet is better*
