POUL wrote the Pope in 4 languages `for which one your Honour prefers...` ”

“ He Jacop had a certain amount of CARE WORK for his father`s Religious community - eventually he went to

Dr John Ray Ransom LETTERS FROM JEAN HIS MOTHER

“ JACOP - He married Monica... Norwegian father French mother ` her mother French
was ` a bit of a
maniac- but
disciplined & of good stock- she brings the dark hair into the family again
-`

...
he was a bit old & restrained perhaps but they found him a good father...Monica had lots
of energy & they saw the children had the best education in Norway...this is where
Gertrud our great-grandmother learned to sing Grand Opera...they would be over at the
Island every year ... granted for Poul`s death & to keep Holy & build when they could a
College ... a University is specified... Jacop had BEGUN THE CHURCH...but it is FRED &
Gertrud who will finish it & make the Island a rare Utopia...a mixture of great learning...
CRAFTS ... & establish the PLAY SEASON ...
The interference from DENMARK was to become horrible & that is why they had to
leave...Scandinavia feared Independence up there & the loss of moneys to them...`

“ ... the black hair...the Poulsens` have it 20th century- but we go fair because of F.R.
who marries Gertrud & then blonde Millie marrying John their son -
Ransom family boys FJR JRR LIR now go fair

Eye colours & hair
shades mattered a lot to families in the 19

th

century & early part of the 20

th

...matching the family up was a pleasant occupation teatimes Sundays...

ˆ Jacop has his children well educated - **a humanist broad education they acquire, holy, but a certain input of the Arts-music-theatre-ideas - which he may not have intended...but they are young people of their time...**

They did not get just the Classicism-science-nature and holy work of his parents household ...

Yet Poul & Margaret with the wax dolls her father brought from the Continent gave performances of many

Shakespeare plays-

& POUL WROTE HIS OWN HAMLET

...

the Greenlanders/Eskimo

... liked to stop the PLAY & ask questions & have it repeated so that the full performance might take 2 weeks ...

but

the Greenlanders always came to the same conclusions as Shakespeare

...he was right !

ˆ But the devotion to nature - **the commonsense understanding of a world shared with other forms of life- the dependency- was born in them- it had been passed on from father Jacop from his parents both dead so tragically by the time he was 15 years old...Jacop`s children could read them Papers/Plays/letters copied...music/**

-

& read POUL writing on his mother- a girl an Eskimo a little bit of French blood -who read Lucretius - & spoke on science of the STARS

19th century : The two Ransom brothers 1820s Fred & John could count their ancestors & the Ransom Brides on their fingers

....
as

they counted their crew...”

They were educated Continent & privately Antigua & N. America earlier...

they were whole enlightened 18

th

century MEN & into every 19

th

century advance science-technology-

They were also musical & able to play the music of other nations where they held lands & had a female line going back through the centuries ...

They were TRADERS... & could build a ship...& soon a railway train...

Old Jacop now beyond 70 years of age - **was inclined to the aesthetic & holy & much humanist learning - he was only anxious to get his CHURCH finished**

...

& a College up perhaps for training young Priests & Missionaries

...

JACOP & his wife MONICA had less money now they had raised the children so well & set them up... Jacop was not good at TRADE as his father POUL...which was how Poul Catechist polymath had made them a small fortune & banked in Norway...Poul made his first investment with a Norwegian Merchant when he was 15 years of age ...& he seems not to have been let down

...

But Poul GRONLANDER was protected by the famous Norwegian family EGEDE who worked in Greenland & were good people...Pastor Hans & wife Gertrud & 3 sons two of them were Witnesses at the Wedding of POUL & Margaret at Frederickstown when it was feared the British might OBJECT...Poul & the Egede boys remained his friends...

they had learned Ancient & modern Greek together...

JACOP ... He did not at first approve the Plans the RANSOM boys put forward for workshops on his Island - but he had NOT his father POUL's skill with moneys & trading -

Youn
FR

g
ED RANSOM said he would finish the CHURCH for him...

but they had to have some INCOME coming in...

although he & his brother were millionaires it would not do to keep on pulling out CAPITAL that their father had made...a lot out of ORANGES then some minerals & skins ...& there was the 19 ACRES NEW YORK...bringing in a bit

...

All these
ancestors 18th-19
th

century of Lennie &
Greetah

are fiercely educated &

have many languages they can use fully ...Arabic, Chinese etc Fred has Coptic...

FRED RANSOM keen to marry Gertrud suggested a furniture shop begin- the oak ballast lay about the shores from previous centuries- CHRIST WAS A CARPENTER *said Fred Ransom*

- JA

COP had not thought of simple things where the island was concerned...Yes, he Jacop had to agree

...`CHRIST grew up in the family Carpenters shop`

An enamel works got going too - but after a short time F.R. discontinued it- technology not good- he returned to metal pans & utensils - Began from his scrap metal heap to think about a GIGANTIC BELL for the Church

...

& time keeping on the island

...

JACOP had his great bell made

!
Twice as tall as himself ...

1967 - Captain Alan Villiers saw it late 1920s... “ ... & the greatest house ever put up in Greenland for Gertrud the Gronlander`s grand-daughter...built like a great ship it would be standing in 400 years Peter ! SHAME !

SHAME ! ...t
hey bombed the Island 1960 got a jump ahead of de Gaulle & MALRAUX...
SHAME !

Great Britain & Danmark did it...!...

Oh...we are going back home `down under` as soon as the children have finished here what they want to do...”

OXFORD December 1967 ...

Captain Alan Villiers great SEAMAN describes the Island & its cultural life ...before the British Imperial scum & Danmark set about having the first bell cast in GREENLAND CUT UP...

... & the horror they subjected the family to ... (*Ransom Gronlander lines*) M. DE SALLE OF PARIS with 4 children under 12... kicking them out of the warm RANSOM house Christmas 1939...keeping them prisoners...only the 2 daughters surviving into the late 1950s...

“ ONE SAIL , Peter , MARGARETHE GAVE US THE KEY...*great house all modern cons...*
he Old Fred Ransom had built it on the American 19th

century OPEN PLAN downstairs...staircase rising...built it for that MIGHTY INTELLECT...THE GRONLANDER...for his grand-daughter...you can see her if you are over in PARIS...the big Delacroix painting...SARDANAPULUS ...They were all young people to-gether about

the world, Europe...in those days...SAIL ANYWHERE...”

ALAN VILLIERS MARINER...1967/1972...

1820s/30s - GREENLAND Jacopsholmen Island :

... **FRED RANSOM** explained to **JACOP** that they had to have a community & educated support coming from other nations or the Danes would walk in & take it all ... even Norway was becoming unpleasant over **JACOP** owning the Island & they had neglected shamefully the Pastor **EGEDE`**s humanist family when they returned to Norway-
neglected such kindly heroes

...

The age wanted profit & had lost the Enlightenment of the 18th century

...

MUCK & MONEY was the rule

...

I Greta Ransom- F.R & Gertrud`s gt-gt grand-daughter saw the early photographs of F.R. beside the **BELL-** It is much higher than him - & the dear **OX** is there - they used him in the Xmas Plays-

....

a second theatre was by the shores -
a natural theatre using the landscape - this was for winter lights performances-here F.R. heated the open air seats-
I think it must have been with pipes & hot water

...

electricity was used from very early & the first electric shovel to put in pylons for an experimental building for the first College
