1930s/1937 - MONSTERS WITH GUNS : This was probably not so very alarming to me - Lennie & I have had awesome adventures because of our heir-ship to our miracle of philanthropy GROTE HOMES & Ransom Estates ...

The Joyous Venture twice round the globe-

& we are always wary of

'monsters from the deep' some with knives & hypnotists needles-

I decided I could help the young Visitors by bringing him

A STATE OF GRACE

-

he was older but

JO

had more common sense perhaps -

1937 SUMMER - Two tall slender figures solemn of movements

& faces were coming & going to the seas edges as we three welcoming them to Clacton remained calm & the young pair were soothed -
the Plans for recreation about the countryside -
some mention of outings - arrangements for their two weeks stay clearly explained
& they to give us their observations -

Andre so tall he may not know what all of him is doing all of the time ... young sea serpent ...

1937 Summer - A young man with browns & bright greens fairy world eyes stepped back on my orange soufel ... made of sand & small pretty shells & with the delicate fronds of the orange-red seaweed arranged upon it & some of the green fronds that are more plentiful - *so I will quiver & suddenly weep then sob awhile ...*

I had been going about the beach that after mid-afternoon amongst the other holiday makers in their little groups & collecting this rare seaweed but told I might not go too far away - & *had to be called back two or three times* - my father has told her our Hostess Unity`s mother , some of the SCARES about from them LINDSAYBUGGARHS & their scum & screwballs ... having me & Lennie the heirs that the Lindsaybuggarhs want killed - as they usually do when it`s a big fortune

...

they are dope-fiends ...

1937 Summer - THE ARRIVAL - **ANDRE MALRAUX & Jo a young lady** ... come from War in bloody SPAIN ...

On the Holland-on-sea beach to be called JO`S BEACH ... I could see delicate rare seaweed on the waterline - this orange soufel was the centre piece & to be the best sand dish I had ever made in this sand banquet for strangers - I BURST INTO TEARS - sobbed not meaning to - *it did not*

help that SheSHE had bought me a school Panama hat for a 16 years old for spite calling me Ape head & it kept slipping over my eyes ...

**1971 /1937 - This time is on the photographs Unity`s family Coe had in 1970-71 Berkshire- a roll of film black-white we took those first days 1937- & I was supposed to go & be laughed at again ? I heard the description of two photos ... & could not go & see on my own in their library & especially as PJPW had told me to ...

1952 - I GR 19 years old - recall her in the 2 room upstairs flat

57 Oxford Crescent Clacton ... I return from my work I love in Colchester Museums &
would find her week days crouched over her RACING FORM papers - She reminded me
of THE MINOTAUR ...

To the usual jibe & veiled deceits I would very brightly say

'Oh shall I make you a nice cup of tea' ... have you had some soup - have you got food for you to-night ...`

Never confront them if you can help it ... I think that ALL OF THEM who have slain the GROTE HOMES CHILDREN for moneys ... savaged our JOYOUS VENTURE ESTATE killed THE WEDDELL descendants South America to put another name on JEAN`S grandpa`s WEDDELL SEA ... turn into MINOTAURS ...

(I called it the Weddell Ocean when I was very young ... Uncle Gimlet Eyes Mainwarring RN said `NO - it is a SEA ... & you girls CANNOT GO FOR THE AFTERNOON IN A ROWING BOAT ... B U T ... I will with the Navy see we make an EXPEDITION ... & JEAN SHALL DANCE ON THE WEDDELL SEA ... *something her grandpa did not imagine* ...& there`s a bit of SCIENCE people want to do down there ... so we will combine ... You can begin toughening up-NO NAMPI PAMPI GIRLS IN THIS FAMILY - we will go when you are 8/9 years old ...”

1971 - The New Year`s day perhaps - on the sweeping stairs is ANDRE MALRAUX in a navy blue suit with a very pale strip ... & he has Victoria *2 years 8 months* on her reins & his face glows some gentle delight... *tall graceful as ever but his face older & his eyes suddenly pools of misery when he is left alone* ...

as PJPW dashes at him to take Victoria off him ...

1939 onwards : **ANYTHING LEARNED** by G.R. usually never lasted more than some

1961 **October** - Graham Greene came visiting & Harold Poulter learned matters he should
have been told 1952/1953 ...

ABOUT PROPERTIES & MONEYS about the GLOBE ...

Mr Poulter (& perhaps Master Greene ?) was getting a grasp of the frightening FACT that
Greta Ransom`s STATE all the past years wa

... the odd visitors to the museum with Noble KUDOS had not been a feature of the Museums

before the 19 years old he called `Child` came to work November 1952 ...

1961 by December - **Mr POULTER - he was quite certain it was about STUFF ...** used on Greta & Andre

Miss Ransom was now ill & absent a month at this time ... & when she returned to work SHE HAD NO IDEA SHE HAD BEEN AWAY ... she remarked on dust on her desk, type-writer ... the reference books ... !

The staff decided NOTHING SHOULD BE SAID - the love MATCH with Colonel ANDRE they were told had failed ... **YET AGAIN**

5th November 1953 - It had all arrived from some Solicitors

... then the letter & envelope disappeared from Hollytrees Study downstairs by the side door to the Park ... the very next day ...

... this coinciding with the barging into Hollytrees Museum by THE PECULIAR
PHYSICIAN WITH THE EXPENSIVE BLUE MOTOR CAR ... he came to be a nuisance to
Colchester Police too ... & some THUGS with a man called CUR JAMES/dirty Jimmie

... He picked me G.R. up after studying the situation slowly & with astonishment at my
grief I suppose - then gazing

with those unusual neither brown or green eyes at me, certainly surprised at my Quaker

I will be pleased that summer 1937 to see *George* sometimes *Andre* picking the radishes & spring onions for our sandwiches our salads for lunch & High Tea -
Lettuces we hath planted out too after the gardener has raised them in boxes, & there are new Potatoes we helped put in the good earth in February .
