“ She TGR had sold so much to a Clacton second-hand shop-until he was told to take no more her husband was not dead - she used a young garage employee to take suitcases of books for her to COLCHESTER (*Donovan Bookseller/The Strand & Colchester branch*) - it was proved she HAD ALL HER HUSBAND's PAY & was taking INCOME from the Estate & with her Noble friends destroying small businesses & grasping at SHARES/Aluminium...others ! ...Your class were also taking OVERSEAS LANDS off her for `The Realm`...They know the Estate is administered overseas America Argentine & Asia...

**“ Her children had to suffer her lewd behaviour in the HOME & visits by noblemen bragging they had killed a number of children offshore ”

**“... ‘ Also the children had the meanest of bedding & while the boys were clothed adequately the girl Greta Ransom had been seen at schools 1943/5 in the meanest & thinnest of garments in winter-her mother hid her knickers or soaked them in cold water in winter before school...Her mother said the girl did this-she was *doo lah li tat* & all her friends in London knew it- they were important !
The matter of drugs used was reported upon
by a retired Medical Officer
who'd made a study of Upper Class use from 1920s...
*there had been a nurse at the hospital with some training-but knowledge was rare...»***

‘ The girl did all the housework she could cope with...of a large house- & 2 other children - GR & CFR were left with 2 pence for the gas meter & sometimes no electricity- there would be candles-a bike torch-an old hurricane lamp-an oil stove-but often there was no oil-

In March 1945 the time of the 12th birthday of the girl... the mother had tipped paraffin over the girl's school raincoat & tried to push her on the stove when the chimney was not closed... Both these children inherited - **the mother**

had always insisted the child JGR was
a bastard...

That the child JGR was a bastard was denied by Captain FJR who produced photos of his grandfather JOHN RANSOM Educationalist of Montreal & the Greenland Island the RANSOM family home/ there was an almost identical likeness -

The mother was known to take the child JGR to London with her to meetings Whitehall-- two meetings had been noted ...`

**1943 February - REPORT from a retired MEDICAL OFFICER - his home close by where he
found the child Greta Ransom...**

“

Before 10am frosty & still a very cold morning

on the Clacton-Holland-on-Sea seafront road beside the cliffs -

**...he found the girl Greta Ransom age 9 years with her brother's shoes that had been cut
off at the toes - her mother had bound them on with string ! She did not go to school
because she was shaking & dizzy bruised with some bleeding- but at 8.30am had made
her way to Holland-on-Sea seafront where she felt her mother would not come-**

**The girl GR was sitting on the wooden Council seat trying to warm herself in the morning
sun- the child was shaking & could hardly speak-
her mother had begun to burn everything in the grandmother's home in the kitchen
range-**

Her mother raged-

**she had found Granny had bought the two of them new shoes (
little Colin 5 years old & Greetha)**

**Granny had paid for them from dear Augusta's account which came in each month for
school things & outings.**

**TGR had begun shouting & hissing not quite screaming at her mother Mary Gordon
when she found out !**

She had hit Granny & all of them

!

(Granny had been taken to hospital the day before...) **John had been sent off to school early**
! Her mother said `Colin was to have

brother John's shoes

when he grew out of them

- Colin's shoes would be sold...John could have the new shoes first...NO NEW SHOES FOR APES

...

YOU BLOODY BITCH

...

MY FRIENDS WANT YOU DEAD !`

Nota bene : The retired Medical Officer knows of the murder of the 9 years old Miss `d`UFF Macdrew Newfoundland heiress in the school *Greetah* is in-in her class-he knows her uncle Patrick MacDrew...& his mother who lives at Holland-on-SEA... The connections will be important in giving evidence over the years-

...it will also lose many witnesses their lives when Mr *Mengele* paedophile Harrington steps in November 1953

gets his snout in to everyone`s lives...& is paid -

his employment authorised by friend Philip Mountbatten...

&

1943 February - " **NO NEW SHOES FOR APES** "

Teresa Gordon R. her mother kept shouting...She her mother had waited until Granny was taken to hospital & began going mad again that school morning...

SHE HAD BURNED THE NEW SHOES bought for both of them-

Greta & little Colin ! She had seen *Greetha`s* new shoes set ablaze... That left GR with no shoes- The old ones far too small but still in nice condition had been given to a poor family by her Grandmother Mary Gordon...

Little Colin wore his old ones which were very broken & worn-he was going to keep those for playing after school in the REC when he came home with his little friends... *they played football* »

" GR had also body bruises from blows-an examination was later carried out by a school nurse when the child was composed -she had been kicked & had blows to her mouth which had been bleeding-*some hair on her scalp may have been pulled out-* She was sturdy & quickly cheerful as soon as she was got warm by my Aunt`s fire - & the whole of that time polite & noticed little ornaments & the cushions were nice- perhaps too anxious to have little fuss made of the violence-

The Chief Medical Officer now retired twice

said he regarded her as under-nourished...highly nervous but sturdy-he recommended Cod Liver Oil other things if available -

Yes he knew her ancestry- North Pole
& some down the other end South Pole

...good bones & teeth & smooth complexion...»

“ It was in Hospital records/& prison records/that the mother 1920s & 1930s became insane on narcotics

- *they could be obtained from the Clacton Noble Mafia sometimes in their Place on Clacton front-called THE GRAND-* this family of Scots Lords

(
LINDSAY)

were demanding an Estate be given to them-

It was they & their highly placed friends who insisted the child GR was an imbecile because of her ancestry-

Sea traders-

philanthropists-

Others could comment here-

‘The retired Medical Officer he said -’ HE HAD MADE A STUDY OF THE USE OF NARCOTICS BY THE UPPER CLASSES - since 1923- when he ‘came ashore’ & decided not to be a ship’s Surgeon

-

He made it a leisure study-narcotics/dope-users/ it was an area of medicine little understood

-

one nurse at Clacton hospital before this War began had also studied & had some training in this field-

1943 January - ‘The previous month January 1943 this sad woman with these noble connections was frequently found to be *violent* - TGR- was to have been transferred to a Mental Institution after serving another year in the prison- However, again a message from a woman known at Clacton-on-sea 1920s/30s as *Angela*

a friend of the Earls Lindsay-’ (

their place the GRAND stood on the Seafront next to the Royal Hotel on a small piece of spare land)

...

`...It was she ANGELA urged authorities they let Teresa Gordon Ransom go free to take care of her 3 children...Angela said the girl was known to be difficult, perhaps mad & caused much trouble for her

mother ! **This 1920 association of Teresa Gordon with a wild set-was known to the town before the War to be a worrying connection & was continued because of Lindsay Noble CLAIM to the Estate -** In

his opinion it would be helpful to Teresa if she were given help in an Asylum...& her companions of her youth kept away from her

....

Angela

...

with Mr JIM Jong often a worry to local Police & other counties !

1942 - **`Mary Gordon grandmother had legal care of the 3 children when their mother TGR was put in a secure place by the Counties of Wiltshire & Worcestershire** 26

December 1941

& to remain for 2 years then be transferred to a Mental Institution to await her husband's return from the WAR- a request had been made that the WAR OFFICE was to have him return for Home Duties...`

Earls of Lindsay & JIM saw he did not-they tried have him killed in Kenya-he was hidden by a family Malindi who knew of GROTE HOMES & their worth

1942/1943 - TGR had been given LEAVES from the Prison in Wiltshire/Worcestershire too frequently during the year 1942 -she would return to Clacton-on-sea by train but go swiftly to her Noble friends - (A Miss

Butler reported her fears to an Essex JP

& the Clacton Hospital staff her aunt Mary Gordon knew)

Sometimes Teresa would go to Clifton a house owned by the Astor family...

TGR had just spent

the Christmas

there 1942/New Year 1943...

TGR returned early January & violence began at her mother & the girl GR & the 4 years old boy CFR

-

A relative a Miss Teresa Butler

had been alarmed at her cousin Teresa`s behaviour

to Aunt Mary Gordon & the children Greetha & little Colin

...

but had to return to her War Duties...

Miss Teresa Butler k

new of the unsuitable companions of her cousin TGR -

“

They noble Britain & some from Scandinavia had little money but knew only too well where it lay...

Southern Ireland & with the Ransom Estate...”

Chief Medical officer continues

“ February 1943 Mary Gordon had been taken to hospital suffering from malnutrition & violence from her daughter Teresa over some days- she demanding money ! TGR clearly

was a user of narcotics & he feared a specific narcotic used by the upper crust-grown in Scotland- he diagnosed this immediately he saw the child GR & heard her account of the early morning while they were preparing to go to school...

she & her two younger brothers...

& that narcotic had to be got from the Noble persons their mother TGR knew...

One person

now in a very high position had Teresa G.R. released in JANUARY 1943 & this clearly should never

NEVER

have been allowed...”
