

She said the boys did not mind all the learning ! Not at all !

Her father would thankfully take her with him when he went down to South America to his forests for the right kind of wood- she did not PLAY UP on the ship as the boys tended to do... but did her lessons & enjoyed the places they stopped off in...one Embassy began to teach her South American etiquette & had lovely clothes made for her...she was 11 years...everybody was so kind & interesting so she was glad she knew other languages & this did help...“ but Oh the learning was too much perhaps for a girl...”
(She is already requested in matrimony by the educated)

1936/1937 ... “Oh everyone spoke Greenlandic because it was Great Poul’s language Mummy’s grandfather - **he wrote the Pope in 4 languages - the Pope sent him a horse & wonders of the world...nutmegs spices...& things that Poul asked for & called the wonders of creation”**
snows-` **Margarethe is my girl of the she learned German in the kitchen from her mother & the Greenland cousins they could all cook lovely things for the winters- stored in the ice caves...apple & pears drinks, & great curd pies, & fruit salad was made in the summers & stored...everyone had food for 5 years...there was never a need of famine...the ships came in with holds full of fruit & vegetables & everyone set too making things to store for winter...`**

1937 - Chattering RAIN DAYS to JOSETTE Clacton-on-Sea...

` I GR have asked & Daddy has made a list... Len & I are making books & I collect the descriptions of the Ransom brides their wedding frocks & the food they had for their homestead when they were not sailing about...One Granny Ransom used to shout “ stop the Ship I want a stew ” but we think she was having a babe /17th century...`

` ...but they had to learn 5 languages in our school in the snows

& ancient tongues...but Daddy & Lennie write & speak Sumerian... Tutors came for 6 months to GREENLAND because the summers are quite fine but most of them liked to stay 2 years...

& you can go shopping at Xristensharb ... or Frederickstown I suppose if you catch the boat - TIG learned 19 languages quickly but he was not very good at German his Family tongue *but they gave him his degree at Gottingham...*He learned many more languages... & then everyone said

`Oh shut up Tiggy you are boasting...`

he went on & learned even the Marsh Arabs speech-

but then he was going round the Globe with Jesus on one shoulder & LUCRETIUS on the other

`Oh sometimes JO... the Greenland ladies wear lovely frocks - Fred built them a sewing room because they like to copy the French fashions & were trekking about in the dark in the snow to show one another- Once Gertrud disappeared before lunch... & he said

`where is your mother`

& the children said

`Oh she has gone to Austria to show off her summer clothes - there was a boat going so she & her cousin & auntie left at 9 o'clock this morn you were not here

(1935 November ...We had to leave our HEIMAT ISLAND last year - we had come on a big

grandpa 2-times back Fred Ransom puts up bunk beds to the ceilings for all the children
coming from abroad for the plays- Shakespeare & in other languages too-the clothes are
made in France & in Rome- the island does have summer & sometimes the wondrous
flowers that have been there since the Vikings- we the Ransoms used to sail up there-
there is a Greenland Eskimo granny way back-but
some of them were very tall like great Poul 6 feet 5 inches- Margaret married him & her
father brought her wedding rings from France-in his ship-they come from Carlisle-

Fred & Gertrud lost their
First Born
Frederick RANSOM with his Greenlander cousins down a crevasse -
they were only 6-7-8 years old...
We have Masses said !
I think of them in Heaven but wish they had life...`

“ 1853 - Tiggy is threatened with being sailed again to stay with The Kant relatives if he does not stay in the Playground in the snow -

Oh-Oh- Tiggy pleads ~“ they put me to die in a corner like a sick kitten ” Tiggy has ringworm from speaking to the Animals in the Boston Zoo when he was 10 & 11 years !
He got the SMELL of them on him- It was in a newspaper in 1851/2- then Thomas-Tig gave performances a certain time in the ZOO-Boston - once a week !
He would talk to the Eagle -

1936 March - We were due at Hollywood where uncle MacMurray has the crew stay on a week or 12 days & we are to make a film on the Tiggy Homes children- the introduction parts are all filmed- Len says he will strangle me with my bib if I say ' *Lindsaybuggarhs*' to anyone- but they do all know about these monsters from the deep-

Fred MacMurray Broker-filmstar-is off a Ransom girl line-a lot of film footage has been made of the RANSOM histories-when they have time they all film away...`

he had nice friends with a big house- they were all Ana-Baptists I think- he lived in a tree a year but then they said will you wear a monk's robe & have this cottage at least in the winters `

-The families says `

**DO NOT DO THIS UNLESS
YOU ARE NICELY RICH`**

- FRED NO CLOTHES he had ships at sea- he read lots of books for 10 years then married a Devon girl & they had 5 children- Nobody minded him at the luncheon table because he was so interesting & covered his ***private parts***
