1944 - **JOSETTE Clotis (Roman Catholic wife of Andre Malraux) French citizen lost her life 9th November-Perigor**

d- She did as Grote Brokers New York USA asked her - tried to get help to the stranded Citizens of France M. De Salle & family of PARIS -

(kin of Ransom-Gronlander-Poulsen) - Jo made some request to have the family, those alive, released from the British blockade of

Jacopsholmen Island off Xristenshab, West Greenland -

Grote Brokers New York USA have administered this Island with the 150 or so Islands about the globe as part of the RANSOM ESTATE from 1830s when it came as the DOWRY of GERTRUD grand-daughter of POUL GRONLANDER/ Her husband FRED RANSOM began the first two experimental buildings for a College- in the late 1840s the early 1850s... there were HOWLS from Gross Britain & Danmark...It is part of Ransom Estate ...

The administrators of the Estate & Grote Homes report 1930s

` we have always had threats & violence against the Greenland & Eskimo families living on the island- some the relatives of GERTRUD Poulsen/some have disappeared feared dead/...the other properties round the globe are being raided of paintings musical instruments, & tenants threatened... by the representatives of the British & Danish Governments & CROWNS- It is they who have always stopped the University building.

The DECREE 1770 granted JACOP POULSEN eldest son of POUL GRONLANDER is accepted by the LAW of USA & Danmark ...

` Island granted to the family of POUL GRONLANDER “ to keep as a Holy Place & when you may erect the University to POUL ”

1939 December onwards...Josette would be able to image in wartime Perigord November 1944 the conditions for a family with 4 children stranded- locked outside a big warm house within the arctic circle-

She might recall the child Greta telling her of this Island life & this lovely house the biggest in Greenland

Summer 1937

Fred RANSOM built the house for the Gronlander's grand-daughter Gertruid Poulsen-the American open plan downstairs impressive staircase bathrooms kitchen with 3 kinds of heating...

1840 the Theatre was built with one Tier added soon-the first Season to be 6 weeks was 7 months-the harbour crowded with Yachts and Steam ships-he Fred Ransom had to anchor the Mary Rose 2 miles out !

written (in English)**

Dear Uncle Fred` we were just making the cake we always make for Christmas-it was
ready to go in the oven...We had the presents for Xmas in the great window- some
candies, 2 bottles of wine, our gifts to one another... .when they
came to the door and
demanded
they come in...

...my father is writing separately to you...we were brought writing paper and the Skipper will take our letters and post them where he can- He has brought us some old furs-a tent we can put up in this great hut, a big bag of oatmeal, some modern fishing tackle, and shown us where to get oil and how to light the stove - My dear father is in shock - They would not let us take things from the house - we put on two layers of our Paris clothes upstairs hoping they would not notice ...
Sarah age 12 years - 1939

1958/1960 ... she Sarah Poulsen de SALLE (in Alaska) to Dr John RAY Ransom 1960 “ ... we managed to get upstairs to the bathroom by asking one of the men...then we put on quickly two layers of our clothes as much as we could... we were told we could not take anything with us... we were terrified they would order us to take them off... it was the most miserable 2 nights in THE HUT...we crouched together in the cold...we had nothing to light a fire with...) ...

Letter *reconstructed* of 1939 December 11th

... “ We were given 20 minutes to leave - **We were not allowed to take any of our food in the house -we were not allowed to take things from the beds-**
JIMMIE
has packed our presents in a sack and bowled them down the hill
-filled another bag with our things your things & this was dragged down to the waiting launch by one of the men...6 or 7...I cannot remember...
The church is wired up-the theatre- & the other buildings- we are told we may not use any other part of the Island-we will be shot if we try to leave.

We were two days here (*in the big empty hut on the seashore*) before the Skipper came in to find some metal from the workshops and use some of the old machines-

We were very frozen when he came ashore...we thought we were to be rescued but he cannot take us as the boat is full and he does not know where he is to stop- he says it must be a mistake and somebody will come for us very soon...

He says he will make sure the letters will reach England...

My father is writing his own letter-we will send them in two envelopes-

We knew our roles... Grote Brokers & Administration, Asia too...everyone South America where the GROTE HOMES had been ... were in shock over the dead children - it was not possible now (at this time) to say they were missing... ”

“ ... It was all handed to us, The Estate Authority, in our old Solicitors Offices ... we should draw what we needed ! They
could not understand how the LINDSAY family were in command of the Canadian transport...they had no experience

& were a very
very

They, our Solicitors,
had from time to time
paid them moneys as gifts to assist education-
they were entitled to nothing -

Rumour flew about that the children were killed by the Nations-this was not at all true - no one would name the killer outright-

IT WAS GREAT BRITAIN & help from Scandinavia ! This was known everywhere !

...They (*Brokers Solicitors*) assured us with their simple philosophy- we were a good family the Estate was ours - we had always had a care of it and they too- since Fred & Gertrud sailed in over a hundred years ago & asked their Firms to assist... there were families of greed & avarice- we should try to avoid them- LIR diaries 1948/49

Geraldine came to the rescue of your father 1946 - she set about the Estate looking to all the properties he handed to her to advise - she was doing excellent work - everyone was pleased - She came to see your mother ...who began a diatribe of marital woes .

By now it was known her sister Miss Winifred Gordon had kept her from the Asylum where she was really in need of care

...

& to free the community from her mad attacks on anyone...”

“ Your mother had no big moneys now...she was entirely dependant upon handouts from the big nobles of her pre-war days...they would see she had a good time if she gave them information on Investments & Estates to hunt out...”

“ Geraldine and us did not know enough. She told her (*Teresa Gordon Ransom*) she was only interested in seeing the family Estate was well run - the children were the inheritors...her children and Len her brother-in-law...they were to take over as they grew up & finished their education ...”

1946/1947 (?) ... “ SHE Geraldine WAS ATTACKED IN HER OFFICE - they came in & thrust a pin in her brain - she would never recover - we got her into a good home abroad - we called until her recent death...”
