1937 Summer - BLACK NIGHT- Part 2 -

Holland-on-Sea Essex...

Saint George-Andre, & Cassiopeia-JO & me the Prophet *reaching to up to around their knees,* have lit a fire upon the place that is becoming spoken of amongst us & others, as  
JO  
,

s BEACH-

We can always find her there-  
perhaps after  
*comth*

from the Visiting Times a day of our hostess  
,

s father in the Convalescent Home above  
-

This evening they hath made a little fire before I arrive from Granny Gordon, perhaps uncle Harry has brought me in his little car - The fire is glowing on a quiet beach made by collecting driftwood about the sands -

ANDRE

began collecting it before full nightfall for he com  
,

th first, & alone a little earlier the Black Night ...

...A DARK NIGHT a black sky night but many brilliant stars appearing- the slow soft  
-lapping sounds of the sea talking to itself  
-

Two men come to speak about Spain - come from almost finishing their work tidying the deckchairs & the beach - I see darkness advancing into our shadows outside the fire

which sometimes is lighting up a black sea edges when a flame  
*ris`th-*

There are 3 specks of light far out -

I do not love the sea but prefer the air with Lennie Flyer-

1935-1936 - I awoke in JEAN's land last year & they her kith & kin *hath* come in the  
darkness on quiet feet-by flat boats like punts- made a fire with a big tripod-food is to be  
cooked-they wear little beaded caps & modern clothes -

“ Will she dance-when will she dance-they come over 2-3 days-they will arrive

...

Cousin Clarke has made a new film-San Francisco ” - “

Yes- he has come with others-from Hollywood -`”

They came on such quiet feet from the waterways where trees bowed over them as they  
anchored their boats - I am remembering this- seeing it all again about this fire  
Holland-on-Sea beach 1937 -

But here I will not speak upon INCA & AZTEC kin- THE MATTER FOR ANDRE & JO IS  
SPAIN-war & blood

-

JO does not want him going back again- he wanders about in a dream

- &

*doth*

not know how

TALL

he is

...

`

“ SPAIN ? Andre says not to go- it is too late- a statement has been made- IT HAS BEEN TER

RIBLE ”

...

Soft voices I hear as if in memory of the dead-

JO

adds what she has seen-

Andre

repeats in clear English-

The men nod at Andre's introduction of us all -

` & say they know where we stay-know my grandparents-*grandpa* Mr George Gordon just dead-whom they miss-

Miss Winnie - Harry- `

young Esther soon to marry Mr Potter the newspaper-town printer-Lifeboat-

*they the young people training working in Town so will no doubt live up there a bit after the wedding -`*

`... the dead Kitty-terrible loss for the parents - **lovely hair-worked as a Nursery maid then an engagement-a quiet marriage made-family well known-India sometime-his brother helping the Government ...** they can recall

that last year 1929 - terrible shock to Thorpe-le-Soken where her parents were living before coming a few miles to the sea to be near

The Misses Bessie & Annie -

they worked hard with A Mission up North when they were young

...

` Oh young Harry not got over it yet - terrible shock to have a sister die so suddenly `

Kathleen Gordon - who had to marry in secret because of her sister Teresa's wild days with the ever present nuisance Mr Jimmie Jong  
& her friend who came down to the Grand on the front...

( they nod their heads & faces look solemn & even grim - speak of troubled times in London & reaching to our seashores sometimes` -

... They will reason that these two young people will have been warned of what comes to misbehave on Clacton seafront

-

The GRAND a low crouching grey Scots granite building squashed between Royal Hotel & Towers- that Police & others forbid young girls & men to enter at any time - ` never take a drink from them - it will have a stain of purple inside the cup the glass`

...

The Police call this narcotic `frog spawn` ...

“ KIT - Kitty - Kathleen Gordon ... the elder sister survived the epidemic that killed her parents 5 children 1905 ages 13 to 2 years.

Kitty who becomes in a private *officially unannounced* Service Catholic Tree Cathedral Mrs Guy Vansittart - her sister Teresa having just got herself a 6 years Prison sentence & *escaped incarceration in an Asylum/*

... or could an Asylum have done something with her - they'd have found out her friends/fiends on high, they now setting about robbing the 60 thousand pounds of her first out of wedlock son Jack Gordon - tragically made Ward of Court at 2 years - then his father a Naval Medical man pushed overboard

...

“ Kitty who could not be buried with her married name as his brother is to do with the Government of G.B - she was attacked by 2 men outside CLIVEDEN-they knew her movements ”  
- **REPORTS/witnesses**

**(It was Jimmie Jong & another man killed her** hitting her face until nothing was left, **after knocking her out - then they threw her in the ditch at the Astor Family Place CLIVEDEN**

”

*(Mr Poulter had a slight stutter from his youth sometimes ...)*

1954 - I am, *that cold still winter morning*, asked by Guy Vansittart kindly softly if I liked working there & I replied *... it's a happy world archaeology- you can travel about TIME...* He looked over the Castle bid me good morning in 20 minutes ...

Guy Vansittart went immediately to see Mr Poulter in Hollytrees -

& Mr Poulter came puzzled to me later in the day “ ... a sad man-rather nervous, would not loosen his scarf in the Study...came asking about you Child...

... knew your Aunt the one that died- I invited him into the Hollytrees Study...e did History at the crack Oxford School-so I said what have you written ... but seems to have done nothing with it... says if the ring is still in the family he wants you & ANDRE to have it ...”

Greta Ransom is being torn apart from ANDRE MALRAUX again

& I am without a proper memory & during the whole time of his re-courtship the Marriage of Grace I barely had 2 or 3 hours at a time in my head -

I am under constant supervision by *Mengele of* Naval Intelligence/departments of IMPERIAL blood soaked Scandinavia & BRITAIN...

ANDRE MALRAUX is immediately very angry with young Master Greene -

1921-1929 - The great Clacton Catholic church building dedicated to OUR LADY is a gift from  
two widows - they simply said to an architect 1920 ...

` Well we`d like something as we see in Rome -

Here`s 20 thousand pounds to begin with - you can have a

little more ...

In the 1930s people smiled & said the Widows had seen Italy when it was fashionable - the English 19
